

Form 23
**Notice of removal of designation or heritage order or part of
designation or heritage order**

Sections 182 and 196, Resource Management Act 1991

To Hauraki District Council

And to Kay Panther Knight (for Wright Family Foundation)

Meteorological Service of New Zealand Limited gives notice that it no longer requires the following designation:

Designation D1 – Paeroa Automatic Weather Station

Meteorological Service of New Zealand requests the territorial authority to amend the district plan accordingly as required by section 182 (or section 196) of the Resource Management Act 1991.

Jeremy Lumley

22 June 2022

Jeremy Lumley - Property Relationships and Project Manager

7.5 DESIGNATIONS

7.5.1 BACKGROUND

- (1) A Minister of the Crown, regional and territorial local authorities with financial responsibility for a public work, or a network utility operator that has been approved as a requiring authority for a particular project under the Resource Management Act 1991 (RMA), may require land to be designated within the District Plan.
- (2) The requiring authority responsible for the designation may do anything in accordance with the designation, irrespective of the rules in the District Plan that might otherwise control the activity. Without the prior written consent of the requiring authority responsible for the designation, no one may do anything in relation to the designated land that would prevent or hinder the project or work to which the designation relates. The zone and district wide rules control activities that are not covered by the designation.
- (3) The designation process and information to accompany a notice of requirement to designate land is set out in the RMA.
- (4) Public works may also be provided for in the District Plan by the following means:
 - (a) **Rules in the Plan**

The particular activities that the public work involves may be included as a permitted activity in the zone concerned.
 - (b) **Resource Consents**

Where the work concerned is not a permitted activity, an application for resource consent can be made.
 - (c) **Existing Use Rights**

Those public works that are existing and which contravene a rule in the plan may be provided for by existing use rights under the RMA.
- (5) The agency responsible for the public work concerned may decide to use or rely on one of the above options to apply to its proposal/operation.
- (6) Designated public works (other than roads) are shown as designated on the planning maps, and are listed in the following schedules. Most of the designations in the District Plan have been carried over from earlier Plans and include public works such as roads, schools, police and fire stations, courthouse, wastewater treatment plants, water reservoirs, council depots, cemeteries, reserves, and river control and soil conservation works, most of which are not subject to any specific restrictions or conditions. More recent designations that are subject to restrictions and conditions are referenced in the schedules with the relevant Council files where the restrictions/conditions can be viewed.
- (7) All Hauraki District Council and New Zealand Transport Agency roads formed and existing as at the date of notification of the Proposed District Plan are deemed to be designated for this purpose, and are not specifically identified on the planning maps or listed in the following schedules, unless the road designation is subject to restrictions or conditions. The activities that may be carried out in compliance with a road designation include:

- (a) Road construction, upgrading, widening and maintenance.
 - (b) Bridge, culvert and drain construction, upgrading and maintenance.
 - (c) Official and regulatory road signage.
 - (d) Activities directly related to the movement of pedestrians, cyclists and motor vehicles, including roadside rest areas, information boards and weigh stations.
- (8) All other activities (on both formed and unformed legal roads) which are not included in the designated purpose shall comply with the requirements of the underlying zoning (see Section 2.1.5.1 - Zoning in Relation to Roads).

7.5.2 SCHEDULES OF DESIGNATIONS BY REQUIRING AUTHORITY

The following schedules of *designations* outline the key information relating to each *designation*. Additional information may be held on *Council* files; such additional information may include specific *conditions* on individual *designations* and specific reference to the Term of the *Designation*, which establishes the lapse period if the *designation* is not given effect to. If no Term of the *Designation* exists then the statutory provisions of the *Act* shall prevail.
