

Statement of Tracey Anne Taylor & Jamie Taylor

Mining provides lots of jobs in Waihi and lots of jobs for other people. If there is mining here there will be jobs but if the mining stops the jobs will stop too.

I know that lots of people apply to the mining company for money to fund projects and that the mine gives lots of money to schools and other places. I would like this to continue. I think mining should continue in Waihi that way the town benefits. There has been a lot of money spent in Waihi East that we would not have got if the mine wasn't there. The project should be approved it will be good for Waihi.
