Reporting

- 3 The consent holder shall provide to the Waikato Regional Council a written report by 4 ~~June~~ 30 September each year. The report shall be written in conjunction with resource consents 103242, 103244, and 103245. As a minimum this report shall include the following:
 - (i) any reasons for non-compliance or difficulties in achieving compliance with the conditions of this resource consent, and
 - (ii) any works that have been undertaken to improve the environmental performance of the sewage treatment system or that are proposed to be undertaken in the up-coming year to improve the environmental performance of the sewage treatment system.

Management

- 4 The consent holder shall ensure contractors at the sewage treatment plant are made aware of the conditions of this resource consent and ensure compliance with those conditions.
- 5 The aerated lagoons and subsurface gravel filter beds shall be constructed to ensure that seepage rates are likely to be no more than 10^{-7} centimetres per second.
- 6 The clay liner material shall be compacted to form a layer no less than 0.9 metres thick under the aerated lagoons and the gravel filters.

Monitoring

- 6 The consent holder shall monitor the quality of the Komata River at three monthly intervals at two locations: the railway crossing, and at a point near the junction of the Waihou River but not influenced by the Waihou River water. Samples shall be tested for ammoniacal nitrogen and chloride.

Review (s128)

- 8 The Waikato Regional Council may in June 2005, June 2010, and June 2015, serve notice on the consent holder under section 128 (1) of the Resource Management Act 1991, of its intention to review the conditions of this resource consent for the following purposes:
 - (i) to review the effectiveness of the conditions of this resource consent in avoiding or mitigating any adverse effects on the environment from the exercise of this resource consent and if necessary to avoid, remedy or mitigate such effects by way of further or amended conditions; or
 - (ii) if necessary and appropriate, to require the holder of this resource consent to adopt the best practicable option to remove or reduce adverse effects on the surrounding environment due to seepage to groundwater and/or to the Komata Stream; or
 - (iii) to review the adequacy of and the necessity for monitoring undertaken by the consent holder.

103243

Note: Costs associated with any review of the conditions of this resource consent will be recovered from the consent holder in accordance with the provisions of section 36 of the Resource Management Act 1991.
