

Schedule

A. Resource consent (107302)

Consent type: Land use consent
Consent subtype: Bed - structure
Applicant: Hauraki District Council
P O Box 17
PAEROA 2951

Activity authorised: To temporarily divert the full flow of the Paiakarahi Stream and to disturb the bed of the stream, at three locations, in association with the placement of a pipeline beneath the bed of the stream, for water supply purposes in the vicinity of Maratoto Rd, Hikutaia

Location: Maratoto Rd - Hikutaia
Map Reference: NZMS 260 R18:500-500

Consent duration: Granted for a period expiring on 1 April 2037

Conditions:

1. The pipeline shall be constructed in accordance with the application for this resource consent and as identified in the resource consent conditions below.
2. The consent holder shall be responsible for the design, structural integrity and maintenance of the pipeline and for any erosion control works that become necessary to preserve the integrity and stability of the stream channel and/or to control erosion as a result of the exercise of this resource consent.

Note: A separate resource consent may be required as a result of the need to undertake erosion control works. Any such consent shall be obtained by the consent holder at their sole expense prior to any works being undertaken.

3. The consent holder shall ensure contractors are made aware of the conditions of this resource consent and ensure compliance with those conditions.
4. The consent holder shall ensure that sediment losses to natural water arising from the exercise of this resource consent are minimised during the construction works and during the term of this consent. In this respect appropriate sediment control practises shall be undertaken which are in general accordance with the principles outlined in the document prepared by the Waikato Regional Council titled "Design Guidelines for Earthworks, Tracking and Crossings" dated 1995.
5. All machinery shall be operated in a manner, which ensures that spillages of fuel, oil and similar contaminants are prevented, particularly during refuelling and machinery servicing and maintenance. Refuelling and lubrication activities shall be carried out at such a location and in such a manner that any spillage can be contained so it does not enter a natural waterway either directly or indirectly.
6. The use of machinery and all other activities shall be undertaken in a manner that minimises the disturbance of existing vegetation cover and the disturbance of sediment in the nearby waterway.
7. In the event of any oil/diesel spillages occurring as a result of the operation all reasonable measures shall immediately be undertaken to avoid or minimise the effects of the spillage. In

this respect the consent holder shall notify the Waikato Regional Council, immediately, of any spillage. In addition the consent holder shall notify the Waikato Regional Council, in writing, within five working days of the spillage occurring, of the measures taken to avoid or minimise the effects of the spillage.

8. As soon as practicable following completion of the works authorised by this resource consent, the consent holder shall re-vegetate any bare soil surfaces that result from the works in an appropriate manner.
9. Any future maintenance, that may be required from time to time, shall be undertaken in accordance with the conditions of this consent and in keeping with the original design protocol.
10. The consent holder shall pay to the Waikato Regional Council any administrative charge fixed in accordance with section 36 of the Resource Management Act 1991, or any charge prescribed in accordance with regulations made under section 360 of the Resource Management Act.

Advice notes

1. In accordance with section 125 RMA, this consent shall lapse two (2) years after the date on which it was granted unless it has been given effect to before the end of that period.
2. Where a resource consent has been issued in relation to any type of construction (e.g. dam, bridge, jetty) this consent does not constitute authority to build and it may be necessary to apply for a Building Consent from the relevant territorial authority.
3. This resource consent does not give any right of access over private or public property. Arrangements for access must be made between the consent holder and the property owner.
4. This resource consent is transferable to another owner or occupier of the land concerned, upon application, on the same conditions and for the same use as originally granted (s.134-137 RMA).
5. The consent holder may apply to change the conditions of the resource consent (except for the duration) if circumstances change (s.127 RMA).
6. The reasonable costs incurred by Waikato Regional Council arising from supervision and monitoring of this/these consents will be charged to the consent holder. This may include but not be limited to routine inspection of the site by Waikato Regional Council officers or agents, liaison with the consent holder, responding to complaints or enquiries relating to the site, and review and assessment of compliance with the conditions of consents.
