Resource Consent Certificate

Resource Consent: AUTH130392.04.01

File Number: 60 00 36A

Pursuant to the Resource Management Act 1991, the Waikato Regional Council hereby grants consent to:

Hauraki District Council
PO Box 17
Paeroa 3640

(hereinafter referred to as the Consent Holder)

Consent Type: Land use

Consent Subtype: Bed - structure

Activity authorised: To construct and use an intake structure on the true right bank of the Ohinemuri River

Location: Walmsley Stream

Spatial Reference: NZTM 1853973 E 5858554 N

Consent Duration: Granted for a period expiring on the twentieth anniversary of the date of commencement

Subject to the conditions overleaf:

General Conditions

1. The consent holder shall undertake the activities authorised by this consent:
 - (a) In general accordance with the document titled "**Waihi & Waikino Water Supply Scheme**" dated **September 2013** (recorded as document number 2831410 on the Waikato Regional Council's document recording system);
 - (b) Unless superseded by the documents relating to the Ohinemuri Intake access roadway recorded as document numbers 2874496, 2874493 and 2844490 on the Waikato Regional Council's document recording system and
 - (c) In accordance with the conditions of this consent.

In the event of any conflict between the application documentation and the conditions of this consent, then the conditions shall prevail.

2. The consent holder shall be responsible for all sub-contracted operations related to the exercise of this consent, and must ensure sub-contractors are made aware of the conditions of this consent.
3. The consent holder shall pay to the Waikato Regional Council any administrative charge fixed in accordance with section 36 of the Resource Management Act 1991, or any charge prescribed in accordance with regulations made under section 360 of the Resource Management Act.

Earthworks

4. The consent holder shall prepare and lodge a Construction Environmental Management Plan (CEMP) for the approval of the Waikato Regional Council acting in a technical certification capacity prior to the construction activities commencing. The CEMP will include measures to limit and manage site stormwater runoff during construction. These measures will include:
 - Erosion and silt control measures (generally in accordance with the requirements of Waikato Regional Council "Guidelines for Soil Disturbing Activities January 2009")
 - Diversion channels/bunds
 - Isolation of intake structure excavation from watercourse
 - Stockpile management
 - Good site management practices
 - Site re-instatement
5. The consent holder shall undertake all construction works in accordance with the approved CEMP as required in condition 4 above.

Intake Structure

6. The consent holder shall ensure that the velocity of water through the intake screen does not exceed 0.3 metres per second under normal operating conditions. If requested by the Waikato Regional Council in writing, the consent holder shall provide data and/or information that this velocity requirement is achieved.
7. The consent holder shall ensure that the intake is screened with a mesh aperture size not exceeding 3 millimetres by 3 millimetres.

Maintenance

8. The intake structure shall be maintained in a sound condition at all times.

9. The consent holder shall be responsible for the provision and maintenance of any erosion control works that may be necessary as a result of the exercise of this consent.
10. The consent holder shall undertake no earthworks on the stream banks nor any disturbance of the stream bed associated with the maintenance of the completed water intake or associated structures, unless such works are authorised.

Review

11. In the six month period following the 5th, 10th and 15th anniversary of commencement, the Waikato Regional Council may following service of notice on the consent holder, commence a review of the conditions of this resource consent under section 128(1) of the Resource Management Act 1991 for the following purposes:
 - (c) To review the effectiveness of the conditions of this resource consent in avoiding or mitigating any adverse effects on water quality, flow regimes and aquatic fauna in the waterway from the exercise of this resource consent and if necessary to avoid, remedy or mitigate such effects by way of further or amended conditions; or
 - (d) To review the adequacy of and the necessity for monitoring undertaken by the consent holder.

Treaty Review

12. Within 12 months of any Co-Management Settlement Act commencing for the Waihou River catchment, the Waikato Regional Council may, following service of notice on the consent holder, commence a review of the conditions of this consent pursuant to s.128 (1)(a) of the RMA, for the purpose of ensuring that this consent is in alignment with the provisions of any such settlement act.

Advice notes

1. This resource consent does not give any right of access over private or public property. Arrangements for access must be made between the consent holder and the property owner.
2. This resource consent is transferable to another owner or occupier of the land concerned, upon application, on the same conditions and for the same use as originally granted (s.134-137 RMA). The transfer of water, including changes of location, may occur as provided for in Chapter 3.4 of the Waikato Regional Plan, subject to the requirements of those rules.
3. The consent holder may apply to change the conditions of the resource consent under s.127 RMA.
4. The reasonable costs incurred by Waikato Regional Council arising from supervision and monitoring of this/these consents will be charged to the consent holder. This may include but not be limited to routine inspection of the site by Waikato Regional Council officers or agents, liaison with the consent holder, responding to complaints or enquiries relating to the site, and review and assessment of compliance with the conditions of consents.
5. Note that pursuant to s332 of the RMA 1991, enforcement officers may at all reasonable times go onto the property that is the subject of this consent, for the purpose of carrying out inspections, surveys, investigations, tests, measurements or taking samples.
6. If you intend to replace this consent upon its expiry, please note that an application for a new consent made at least 6 months prior to this consent's expiry gives you the right to continue exercising this consent after it expires in the event that your application is not processed prior to this consent's expiry.
