

## Amenity Effect Programme (AEP) Payments

If you are already enrolled in the AEP and your property has qualified for payment in the latest cycle, you should by now have received a letter confirming your eligibility and the specific payment amount.

If you are not currently enrolled in the programme but your property has qualified for payment in the latest cycle, OceanaGold representatives are currently visiting those properties with the necessary forms and details to sign up to the programme if you wish.

If you have any queries on the AEP please pop into our Project Information Office at 86 Seddon Street, Monday to Friday 10am – 2pm or call 021 190 1078 or 0800 924 444.

## What is a Jumbo?

A Jumbo is the mining term for a type of underground drilling machine, which is typically operated by one person with an 'offsider' assisting. While we do have some smaller, single-boom Jumbos for specialised applications, most of the Jumbos in Waihi consist of two drilling booms. These are used for two main tasks onsite; to drill into the ground to make holes for explosives, and to install rock bolts and mesh as part of ensuring new areas are safe to work in.

Operating a Jumbo effectively is a highly skilled task, with several years of experience typically needed to truly master the equipment and its applications onsite.

## Join our Waihi and Local Areas Talent Community (Entry Level Roles)

Register your interest to be automatically informed when entry level roles at the Waihi Operation become available to apply for.

Our Waihi Operation has opportunities to join a team that is committed to achieving an injury free work environment and has a high regard for personal safety and the safety of their workmates.

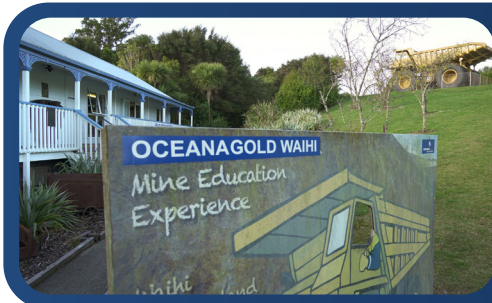

If you are looking for a new challenge and thrive on teamwork and working safely, then we want to hear from you!

## Correnso & Project Martha Community Meeting

Our next Correnso and Project Martha Community Meeting will be held on Thursday the 9th of March from 5:30 to 7:30pm. This meeting is designed to provide an update to affected residents within the Correnso and Project Martha (including Rex) mining areas about works undertaken since the previous meeting.

The meeting will be held in the OceanaGold Education Centre on the corner of Moresby Ave and Savage Rd. In the meantime, if you have any questions please visit or call the Project Information Office.
