

HAURAKI DISTRICT COUNCIL
**Resource Consent
Certificate**

Resource Consent: 124630
File Number: 60 39 23A

Pursuant to the Resource Management Act 1991, the Waikato Regional Council hereby grants consent to:

Hauraki District Council
PO Box 17
Paeroa 3640

(hereinafter referred to as the Consent Holder)

Consent Type: Discharge permit
Consent Subtype: Discharge to water
Activity authorised: To discharge backwash and/or process water to the Awaiti Canal direct via settlement ponds and the adjacent stormwater drain; and indirect via seepage from the settlement ponds
Location: Awaiti Canal Road, Kerepehi Town Road - Kerepehi
Spatial Reference: NZTM 1824973 E 5868627 N
Consent Duration: This consent will commence on the date of decision notification and expire on 30 June 2047
Subject to the conditions overleaf:

General Conditions

1. The consent holder shall undertake the activity authorised by this consent:
 - (a) In general accordance with the documentation submitted to the Waikato Regional Council as part of the application (as recorded on the Waikato Regional Council's document recording system numbered 2174895 and the further information supplied numbered 2200278); and
 - (b) In accordance with the conditions of this consent.

In the event of any conflict between the application documentation and the conditions of this consent, then the conditions shall prevail.

2. The consent holder shall be responsible for all sub-contracted operations related to the exercise of this consent, and must ensure sub-contractors are made aware of the conditions of this consent.
3. The consent holder shall pay to the Waikato Regional Council any administrative charge fixed in accordance with section 36 of the Resource Management Act 1991, or any charge prescribed in accordance with regulations made under section 360 of the Resource Management Act 1991.

Annual Discharge from Raw Water Storage Tank

4. During each calendar year the consent holder may undertake a single discharge of raw water from the Raw Water Storage Tank for not more than eight hours, to the adjacent stormwater drain.
5. Settled sediment from the discharge remaining within the stormwater drain, shall be removed as soon as practicable and disposed of to an authorised facility.
6. Any discharge from the raw water tank shall only occur when the stormwater drain is dry.
7. The consent holder shall notify the Waikato Regional Council at least 24 hours prior to any discharge from the raw water tank occurring.

Limits

8. The discharge of treated water from the settling ponds to the Awaiti Canal shall not exceed 1,750 cubic metres in any 24 hour period.
9. The rate of discharge shall not exceed 25 litres per second.
10. The consent holder shall undertake water quality monitoring of the discharge as specified in the following table:

Site	Parameters	Frequency
Supernatant	pH, Soluble Aluminium, Total Suspended Solids	Monthly

11. A report detailing the daily volume discharged, rate of discharge and monitoring undertaken, together with a commentary on the significance of the results, shall be provided to the Waikato Regional Council by 30th September each year that this consent is current. Changes to the frequency of the monitoring referred to within condition 10 may occur with the written approval of the Waikato Regional Council.
12. The discharge from the stormwater drain to the Awaiti Canal is to cease from 1 December 2012.

13. From and after 1 December 2012 the water quality of the discharge into the Awaiti Canal shall be meet the following limits:

Parameter	Permissible Level
pH	6.5 – 9.0
Soluble Aluminium	Maximum 0.055 gram per cubic metre
Total Suspended Solids	Less than 30 grams per cubic metre except for two exceedances per year

14. There shall be no visibly conspicuous discharge of oil or grease films, scums or floatable or suspended materials in the tributary as a result of the discharge.

Settling Ponds

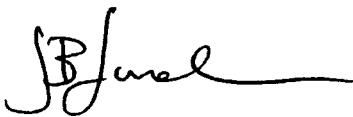

15. The settling ponds shall be de-sludged when a grab sample taken from the upper level of the settlement ponds exceeds 27 grams per cubic metre of total suspended solids, or within three months of notice from the Waikato Regional Council to do so. To enable assessment of this condition grab samples shall be taken on a three monthly basis. The sludge shall be disposed of to an authorised facility.
16. The discharge shall not cause conspicuous erosion or scouring at the point of discharge.

Review

17. The Waikato Regional Council may in 2017, 2022, 2027, 2032, 2042 serve notice on the consent holder under section 128 of the Resource Management Act 1991, of its intention to review the conditions of this resource consent for the following purposes:
- (i) to review the effectiveness of the conditions of this resource consent in avoiding, or mitigating, any adverse effects on the environment from the activity and, if considered appropriate by the Council, to avoid, remedy or mitigate such effects by way of further or amended conditions; and/or
 - (ii) if necessary and appropriate, to require the holder of this resource consent to remove, or reduce, adverse effects on the environment resulting from the exercise of this consent; and/or
 - (iii) to require the consent holder to undertake the best practicable option with respect to the discharges to avoid, remedy or mitigate any adverse environmental effects.

Costs associated with any review shall be borne by the consent holder.

*For and on behalf of the
Waikato Regional Council*

.....

Advice notes

1. In accordance with section 125 RMA, this consent shall lapse five (5) years after the date on which it was granted unless it has been given effect to before the end of that period.
2. Where a resource consent has been issued in relation to any type of construction (e.g. dam, bridge, jetty) this consent does not constitute authority to build and it may be necessary to apply for a Building Consent from the relevant territorial authority.
3. This resource consent does not give any right of access over private or public property. Arrangements for access must be made between the consent holder and the property owner.
4. This resource consent is transferable to another owner or occupier of the land concerned, upon application, on the same conditions and for the same use as originally granted (s.134-137 RMA).
5. The consent holder may apply to change the conditions of the resource consent under s.127 RMA.
6. The reasonable costs incurred by Waikato Regional Council arising from supervision and monitoring of this/these consents will be charged to the consent holder. This may include but not be limited to routine inspection of the site by Waikato Regional Council officers or agents, liaison with the consent holder, responding to complaints or enquiries relating to the site, and review and assessment of compliance with the conditions of consents.
7. Note that pursuant to s333 of the RMA 1991, enforcement officers may at all reasonable times go onto the property that is the subject of this consent, for the purpose of carrying out inspections, surveys, investigations, tests, measurements or taking samples.
8. If you intend to replace this consent upon its expiry, please note that an application for a new consent made at least 6 months prior to this consent's expiry gives you the right to continue exercising this consent after it expires in the event that your application is not processed prior to this consent's expiry.
