# ***Resource Consent Schedule C***

**Resource Consent:** 122549  
**File Number:** 60 00 36A

*Pursuant to the Resource Management Act 1991, the Waikato Regional Council hereby grants consent to:*

Hauraki District Council  
PO Box 17  
Paeroa 3640

*(hereinafter referred to as the Consent Holder)*

**Consent Type:** Discharge permit  
**Consent Subtype:** Discharge to water  
**Activity authorised:** To discharge treated water from a water treatment plant to an unnamed waterway  
**Location:** Unnamed tributary of the Ohinemuri River  
**Spatial Reference:** NZTM 1851800 E 5859773 N  
**Consent Duration:** Granted for a period expiring on the fourth anniversary of the date of commencement

**Subject to the conditions overleaf:**

### General Conditions

1. The consent holder shall undertake the activity authorised by this consent:
  - (a) In general accordance with the documentation submitted to the Waikato Regional Council as part of the application (as recorded on the Waikato Regional Council's document recording system number 1928126 and 2022167); and
  - (b) In accordance with the conditions of this consent.

In the event of any conflict between the application documentation and the conditions of this consent, then the conditions shall prevail.

2. The consent holder shall be responsible for all sub-contracted operations related to the exercise of this consent, and must ensure sub-contractors are made aware of the conditions of this consent.
3. The consent holder shall pay to the Waikato Regional Council any administrative charge fixed in accordance with section 36 of the Resource Management Act 1991, or any charge prescribed in accordance with regulations made under section 360 of the Resource Management Act 1991.

### Limits

4. The maximum discharge of treated water from the water treatment plant to the unnamed tributary shall not exceed 93 cubic metres in any 24 hour period.
5. The consent holder shall undertake water quality monitoring of the tributary and discharge as specified in the following table:

Site	Parameters	Frequency
20 metres upstream	pH, Soluble Aluminium, Total Suspended Solids, Temperature	Quarterly (February, May, August and November)
50 metres downstream	pH, Soluble Aluminium, Total Suspended Solids, Temperature	Quarterly (February, May, August and November)
Supernatant	pH, Soluble Aluminium, Total Suspended Solids, Temperature	Quarterly (February, May, August and November)

6. The water quality of the discharge into the unnamed tributary shall be within the following limits:

Parameter	Permissible Level
pH	6.5 – 9.0
Temperature	Shall not increase stream temperature level by more than 2°C
Total Suspended solids	Shall not increase the suspended solid level, within the stream downstream of the discharge, by more than 10% when comparing upstream and downstream results
Soluble Aluminium	Maximum 0.1 gram per cubic metre

7. There shall be no visibly conspicuous discharge of oil or grease films, scums or floatable or suspended materials in the tributary as a result of the discharge.

### Monitoring Report

8. A report detailing the daily volume discharged, rate of discharge and monitoring undertaken (conditions 4, 5 and 6), together with a commentary on the significance of the results, shall

be provided to the Waikato Regional Council by 30<sup>th</sup> September each year that this consent is current. Changes to the frequency of the monitoring referred to within condition 5 may occur with the written approval of the Waikato Regional Council.

**Settling Pond**

9. The settling pond shall be de-sludged as required, or within three months of notice from the Waikato Regional Council to do so.

Advice note: Consent may be required for the disposal of sludge from the pond desludging operation.

10. The discharge shall not cause conspicuous erosion or scouring at the point of discharge.

*For and on behalf of the  
Waikato Regional Council*

.....

**Advice notes**

1. This resource consent does not give any right of access over private or public property. Arrangements for access must be made between the consent holder and the property owner.
2. This resource consent is transferable to another owner or occupier of the land concerned, upon application, on the same conditions and for the same use as originally granted (s.134-137 RMA).
3. The consent holder may apply to change the conditions of the resource consent under s.127 RMA.
4. The reasonable costs incurred by Waikato Regional Council arising from supervision and monitoring of this/these consents will be charged to the consent holder. This may include but not be limited to routine inspection of the site by Waikato Regional Council officers or agents, liaison with the consent holder, responding to complaints or enquiries relating to the site, and review and assessment of compliance with the conditions of consents.
5. Note that pursuant to s333 of the RMA 1991, enforcement officers may at all reasonable times go onto the property that is the subject of this consent, for the purpose of carrying out inspections, surveys, investigations, tests, measurements or taking samples.
6. If you intend to replace this consent upon its expiry, please note that an application for a new consent made at least 6 months prior to this consent's expiry gives you the right to continue exercising this consent after it expires in the event that your application is not processed prior to this consent's expiry.
